# Precision Medicine Approaches: Targeting KRAS G12C Mutations with Sotorasib and Managing Bone Metastasis with Denosumab

LIVE WEBINAR

## Wolf Jürgen, MD, Professor

Medical Director, Center for Integrated Oncology Cologne

Dr. Wolf Jürgen is the Medical Director at the Center for Integrated Oncology in Cologne and Chair of the Lung Cancer Program. He specializes in lung cancer treatment, particularly in managing KRAS G12C in NSCLC. He has coordinated the establishment of the Center for Integrated Oncology, initiated the Lung Cancer Program, and founded the Lung Cancer Group Cologne.

In 2010, he founded the Network Genomic Medicine Lung Cancer, a network integrating over 300 partners for centralized molecular genotyping and personalized treatment. In 2016, he received the Innovation Award of North Rhine-Westphalia for founding the Network Genomic Medicine.
